Dear Hiring Manager,

I am writing to express my interest in the Internship opportunity with Intel's Memory Compiler Team. The prospect of contributing to Intel's cutting-edge projects and gaining hands-on experience in software maintenance and testing is truly exciting for a fresher looking to gain experience .

As a highly motivated and detail-oriented individual, I am confident in my ability to perform software maintenance for existing applications and contribute to test case creation and regression preparation using Python. I am currently pursuing a Bachelor's Degree in Computer Science and have gained foundational knowledge and experience in Software Management and Testing life-cycles.

My passion for learning and my ability to adapt quickly make me a valuable asset to the team. I am confident that my technical skills, combined with my strong work ethic and collaborative mindset, will enable me to thrive in this internship role. I am eager to contribute to the team's success by leveraging my Python expertise and actively participating in the software maintenance and testing processes.

Thank you for your time and consideration. My work experiences, coupled with my affinity for software development, would make me an asset to Tetra Tech . I can be easily reached at your convenience by email (as0279@srmist.edu.in) or by telephone (7080423288).

Sincerely

Akshat Singh
